ASTER

- ASTER is multiseat extension for MS Windows:

- ASTER is a program (and only a program!) which allows to create up to 12 workplaces on base of a single system unit
- ASTER does not use any thin clients, i.e. only standard monitor, keyboard and mouse are enough to create additional workplace!

ASTER

Benefits:

- Cost of hardware is cut down up to 70%
- Low operating cost
- Electric power saving
- Low level of noise
- Work space is saved
- Environmentally friendly
- More fast than analogs (MS MultiPoint, SoftXpand)

IBIK Ltd.

Customers

- **School in Katmandu**

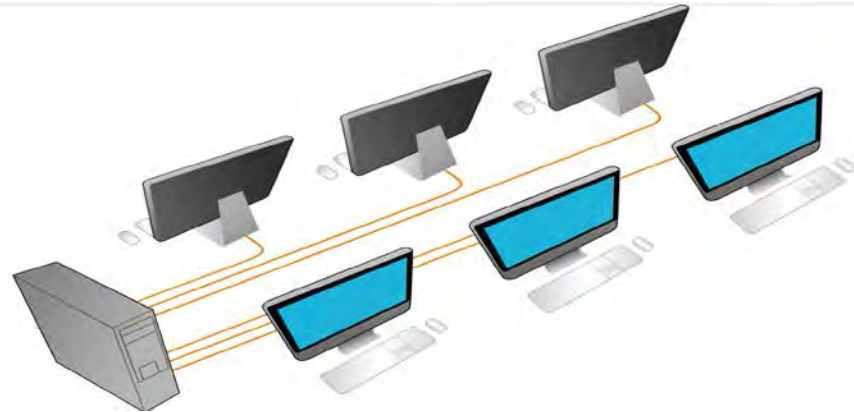

IBIK Ltd.

Perspectives

- **Multiseat PC with pre-installed Aster**

- Multiseat PC - PC optimized for using by multiple users (high performance PC with increased the number of video outputs and USB ports)
- Each user will get a more productive workplace for a price of 3-4 times less than a separate PC. (see https://en.wikipedia.org/wiki/Multiseat_configuration)

IBIK Ltd.

Perspectives

- TV as PC workplace

- Aster allows you to use the TV as an additional workplace for watching movies, PC games, etc. simultaneously with your PC.
- Thanks to Aster even an ordinary TV can significantly exceed the capabilities of SmartTV (see <https://www.youtube.com/watch?v=ZBScQECj3pk>).

IBIK Ltd.

Perspectives

- Tablets, smartphones as PC workplace

- Aster allows you to run several remote access sessions from Android devices to your PC and turns any mobile device into a Windows workstation (see <https://www.youtube.com/watch?v=1IntNXTZtK4>).
